Property Details

This 78-acre parcel is a hunter's dream. The property is very secluded with farming all around producing great deer, turkey and hog hunting. A large creek runs down the west side of the tract and a pond sits on the southeast corner, making a good duck habitat. With 32 acres of the property converted from row crop to managed food plots and bedding areas, this tract is a must see. The remaining acreage is mostly Hardwood timber flats and a few pines mixed in.
