

For-sale

EVANS STREET

Treutlen County | \$199,900 | 9.87 acres

Property Details

Evans Street is a great opportunity for a low maintenance home in the country. The property offers plenty of room with 9.87+/- acres to enjoy. The barndominium is approximately 1,800 square feet and has a covered awning across the front for a front porch. The kitchen and living area are open to each other at the front of the house with the bedrooms along a long hall way. The interior of the home is ready to be finished. The dry wall has been sanded and is ready for trim work, flooring, cabinets, and fixtures. The hard part of the build is done and is ready for a new owner to customize the interior however they would like. HVAC, well, septic, rough electrical, and rough plumbing are all in place. The home is located a few miles outside of Soperton on very quiet road just off of HWY 15. This location makes for easy access to I-16 and Vidalia as well. Come see a great home in the country that only needs the finishing touches put in place.

Address

535 Evans Street
