Sold

MIDDLE GA HOMESITE

Crawford County | $168,330 | 21 acres

Property Details

Middle GA Homesite & Recreation Tract is a near turn-key property located on the Crawford/Upson county line. The property is just off of US Hwy 19, with frontage along US Hwy 80. A large enclosed Barn sits on an upland hilltop, surrounded by a large open area. The barn could be used in a wide variety of ways by the future owner. The barn has power and water already in place. A 600 foot deep well is in place as you drive up to the barn. Power has already been run nearly 500 feet onto the property, which allows easy access to a homesite if desired.

This tract would be an excellent hunting property for the outdoorsman. Crawford County is one of the most sought after deer hunting counties in the state as it is located in the Flint River corridor. This tract sits just over two miles as the crow flies. There is a large open area towards the back of the property, which would make for a nice food plot. An established road system allows you to access the majority of the tract. There is plenty of room for additional food plots if desired.

Property's with these types of improvements rarely come available to the open market. Give us a call today to see it for yourself!

Address
9550 US Hwy 80
Roberta, Georgia 31078
